- | | | |
|--|--|------------------------------------|
| <input type="checkbox"/> Bacteriology | <input type="checkbox"/> Nitrate | <input type="checkbox"/> Turbidity |
| <input type="checkbox"/> Lead * | <input type="checkbox"/> Copper * | <input type="checkbox"/> Iron * |
| <input type="checkbox"/> Volatile Organic Compounds (VOCs) * | <input type="checkbox"/> Other Metals: _____ * | |

* Some requested samples may need to be processed by the State laboratory in Baltimore and may take at least 2-3 weeks to receive results. These samples may require a separate fee to the State of Maryland.

The Code of Maryland Regulations requires sampling of bacteriology, nitrates, and turbidity as part of the well certification process. If requesting other testing, it is advised that the applicant should discuss the reason for the request with staff from the Somerset County Health Department Environmental Health office. Upon receipt of this application and fee, Somerset County Health Department staff will contact the applicant to arrange a time to sample the water supply.

No refunds will be granted once fieldwork has begun or after 30 days from the application date.
